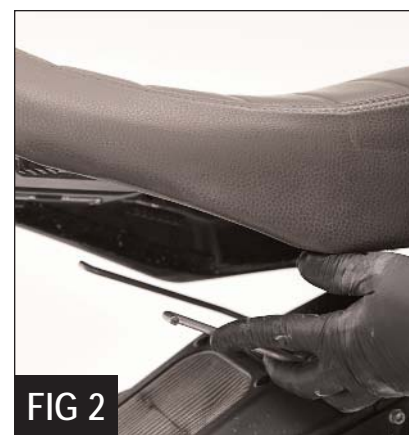

FIG 2

2. Remove the rear hinge on the stock seat (Figure 4) and transfer it to the Corbin seat and secure with the provided bracket and flat head Allen bolts, using a 4mm Allen wrench (Figure 5).

FIG 3

3. Install the Corbin seat just like stock. Place the rear hinge on the seat into the rear bracket on the bike. Tighten the bottom bolt on the bracket and secure with the top bolt. Reconnect the front hinge and spring.
